

BRAND GUIDE

Visual identity guidelines • 2026

thepreludeproject.org

1. Brand foundation

A visual system that feels joyful to children and credible to adults.

JOYFUL

Color, movement and musical energy without feeling juvenile.

INCLUSIVE

Gender-neutral colors and approachable forms that welcome everyone.

CREATIVE

Unexpected accents and expressive rhythm reinforce music and imagination.

TRUSTWORTHY

Indigo anchors the system so it remains appropriate for parents, educators and donors.

Design principle

Use the darker indigo as the visual anchor. Let aqua, coral and lime appear as moments of energy rather than competing equally across every application.

Suggested overall color balance: 50% neutral / 25% indigo / 25% combined accents.

Audience fit

The identity should be equally comfortable on a child's T-shirt, a family-facing web page, an educator handout and a donor presentation.

2. Logo system

Keep the mark energetic, recognizable and easy to reproduce.

Primary logo

Use the full-color stacked logo on white or Warm White whenever space allows. This is the default brand signature.

Clear space

Maintain clear space of at least 1× the cap height of "MISSION" on every side.

Minimum size

Digital: 180 px wide minimum for the full logo. Print: 1.5 in (38 mm) wide minimum. Below that, use a simplified icon-only mark.

3. Color palette

Bright accents create energy; indigo provides consistency and contrast.

INDIGO

#1E4A8A

Primary anchor

Text, wordmark, staff lines, key UI elements

AQUA

#26B5C9

Primary accent

Secondary type, notes, highlights, links

CORAL

#EF7867

Energy accent

Musical notes, calls to action, celebratory details

LIME

#8BC34A

Fresh accent

Small notes, activity markers, occasional highlights

WARM WHITE

#FAF9F6

Neutral base

Backgrounds and generous negative space

READABILITY RULE

Use Indigo for body text on light backgrounds. Aqua, Coral and Lime are accent colors—not body-text colors. White-on-Indigo is suitable for reversed text.

4. Typography

Friendly, rounded display type paired with highly readable supporting text.

DISPLAY / HEADLINES

Comfortaa Bold

Music makes room for everyone.

Use for page titles, campaign headlines, short callouts and playful moments.

BODY / INFORMATION

Nunito Sans or Noto Sans

Use a clean rounded sans serif for paragraphs, program information, web navigation and longer-form communications. Regular for body copy; SemiBold/Bold for emphasis.

Wordmark note

The “MELODY MISSION” lettering in the logo should be treated as custom artwork. Do not re-typeset the logo with a substitute font.

Suggested hierarchy

Headline • Comfortaa Bold **SUBHEAD • BOLD**
Body copy • Regular

5. Graphic language

Build recognition beyond the logo through rhythm, movement and restrained accents.

SWEEPING LINES

Use curved staff-like lines to suggest music, movement and connection. Keep them thin and open.

SPARKS + BURSTS

Small four-point sparks and short radial strokes can add delight around headlines and moments of achievement.

COLOR NOTES

Use coral, aqua and lime as isolated visual “notes.” Avoid using every accent everywhere.

ROUNDED SHAPES

Favor soft corners, circles and pill shapes in UI and collateral. Avoid rigid, corporate boxes.

6. Usage rules

Consistency matters more than decoration.

DO

- Use the primary logo on uncluttered light backgrounds.
- Keep indigo dominant and accents selective.
- Preserve clear space around the mark.
- Use rounded, friendly typography and generous white space.
- Use photographs and illustrations that feel active, inclusive and real.

DON'T

- Do not stretch, skew or rotate the logo.
- Do not recolor the primary indigo into unrelated hues.
- Do not place the logo over visually busy photography.
- Do not use coral, aqua or lime for long passages of text.
- Do not add shadows, outlines, bevels or extra effects.

QUICK SPEC

PRIMARY	Indigo #1E4A8A
ACCENTS	Aqua #26B5C9 • Coral #EF7867 • Lime #8BC34A
NEUTRAL	Warm White #FAF9F6
